TESLA MODEL Y MODIFICATION CATALOGUE

Newest Shift Lever Turning Stalk

For Tesla Model X / S / 3 Highland / New Y Juniper

Y STEERING WHEEL SHIFT PADDLE SUPPORT OTA UPGRADE

- Our shifter is designed to fit the original car and functions perfectly with the original Tesla screen. Even if you install it, you can still install other multi-function screens on your dashboard.
- Our shifter adds a special feature, one-touch honking, which makes it easier and quicker to use.
- Shifting gears on the original Tesla car screen makes it easier for us to lose concentration. Our shifter solves this problem and shifts gears faster.
- Gear shifting, parking, cruise mode, turn signals, windshield wipers, high/low beams
- Customize left stalk function - new upgrade: you can download mobile APP 'smartctr', password 123456. after connecting system, you can change the function of left stalk on your cell phone. You can also wireless OTA stalk version

TS1010

Automatic Door Soft Closing

For Tesla Model Y / 3 / 3 Highland / New Y Juniper

4 x Car Doors

ELECTRIC VACUUM SUCTION DOOR LOCK SELF-PRIMING ANTI-PINCH INTELLIGENT KIT

1. 2025 Newest 6th Generation Door Soft Closing for Tesla cars, with Japanese Mabuchi high-performance Motor;
2. Suitable for Tesla Model Y / 3 / 3 Highland / New Y Juniper;
3. The lighter, the better (nearest to original OEM version);
4. Automatic Closing: 7~9mm closing distance, with smart induction and perfect closing;
5. Soft-close Automatic Operation: Comfortable driving, gracefully getting on/off the car;
6. Replacement at Original Position: Directly replacing the door lock of the original car, 100% non-destructive installation.
7. Safe Door Closing: Smartly identifying the action of door closing, completely locking by lightly pushing the door;
8. Emergency unlocking: It has emergency unlocking function, strong structural performance, low failure rate, easy maintenance, etc.
9. Opening and Closing under Any Condition: The doors can be opened and closed under emergency such as power failure;
10. Logic Anti-pinch: It is more sensitive and faster response time when detect an object during closing, the door will immediately stop closing, thus preventing pinch;
11. Super Silence: The noise is lower than 50db, you will not listen louder noise;
12. The installation is not easy, the most difficult is assembling car doors, if you could assemble your door easily, then other steps will be easier and faster. We will offer installation video, you may try to install it by yourself, if can't finish, please take the Door Soft Closing to your local Tesla maintenance shop.
